

## Line Scan Machine Vision Label Inspection

**360° in line inspection  
of cylindrical packaging**

### FEATURES

- 12 parts per minute
- 100% inspection
- Auto teaching
- Pneumatic actuator to kick off defective parts

### INDUSTRY

Packaging — Injection molding

### LOCATION

Elk Grove Village, Illinois

### APPLICATION

Automated inspection cell with “vacuum bucket rotator” for 360° line scan image.

Integrated motion, vision, sequencing, and data collection technology for label alignment verification and defect detection.

### COMPONENTS

Cognex InSight 5604 Linescan System

ProFace Industrial Touchscreen PC

Allen-Bradley CompactLogix PLC

Emerson Commander SK Motor Drive

Emerson Epsilon EP Servo Drive

InduSoft User Interface
